FOR PRESIDENT,
BENJAMIN HARRISON,
Of Indiana.

FOR VICE-PRESIDENT,
LEVI P. MORTON,
Of New York.

Saturday, November 3, 1888

What Will Carry New York.

Without making too broad a statement of rather a touchy subject the GAZETTE predicts that New York will go for Harrison this time for a very good reason and that is that a very large Republican contingent will vote that way that never voted before. Cleveland in 1884 got the votes of all the boys born between 1861 and 1865 because they were the sons of the stay-at-homes and copperheads, while those whose children would have voted the other way were at the front. But in 1888 many of the boys of 21 now voting for the first time trace their parentage to those who laid down their arms in '65 and returned to the pursuits of peace. This is a very great consideration in a country that disbanded an army of a million of men either married or marriageable and in the very prime of young manhood.

THE fact is—and it is a fact which Republicans cannot too gratefully acknowledge—that no feature of their campaign has been more helpful and inspiring than General Harrison's speeches. Lucid, manly, sensible, acute, invariably dignified, and rising to genuine and unaffected eloquence when the theme and the surroundings were such as to touch his own heart and the hearts of those before him, they have set the issues of the campaign in the pure white light of truth. But they have done even more than this—they have served to reveal the man. In the last few weeks of the struggle which means so much to him, to his party and to the country, he stands before the people without fear and without reproach, wise, steadfast, forceful—and a gentleman.

PROBABLY there never was a national contest in this country in which there was so much individual thinking as during the pending campaign, and it is this silent but impressive vote that will decide the battle. It is here, too, that the cause of the Republican party is strongest; it has nothing to fear but everything to gain from an honest and intelligent discussion of the issues at stake. It does not need to rely on any tricks of management, new or old, to win this fight, nor to enter into any alleged combinations with any trading or mercenary elements. It can stand squarely up before the people and confidently appeal to their intelligent judgment. It never was more pre-eminently in the right than in this great battle for the maintenance of American industry and the continuance of American prosperity.

MINISTER WEST is a sort of Dr. Jekyll and Mr. Hyde. He represents the British Government, and personates the Democratic party. He is the ablest spokesman for Great Britain who has so far, in the history of our Government, posed for his Government at Washington.

THE desperate tricks being resorted to by the Democracy in many States is all the evidence needed to show that they regard their cause as more than hopeless.

HON. WM. M. STEWART, Nevada's first Senator, will talk plain truth to the people at the Opera House to-night.

Holding the South Bold.
CANTON, TEX., Nov. 1.—James Bell, Ben Russell and George W. Griffin were killed in Van Zandt county last Wednesday night. Russell was accused of a misdemeanor, and W. L. Sares, Sam Stanford, Claid Stanford and Will James went to arrest him. Three negroes were met and ordered to throw up their hands, but before they could comply, they were shot down. The friends of the dead men assert that they were killed as a result of a political quarrel.

The Record Broken.
LONDON, Nov. 3.—The Cunard steamship Etruria, from New York October 27th, for Liverpool, passed Brownhead at 8 o'clock last night. Her correct time from New York is six days, three hours and fifteen minutes.

75,000 New York Republicans in Line.

The Canadian Pacific Railroad
Muddle Still Continues—
Miscellaneous.

Seventy-five Thousand Republicans in Line.

NEW YORK, Nov. 3.—The Republican business men's parade started from the battery at 1 o'clock this afternoon on the way up Broadway. The bankers and brokers' division passed up town and the other divisions fell in from the side streets. At half-past 2, the streets had been cleared as far up as Liberty, and about 20,000 men had by that time fallen into line. The rain of the morning continues, but the marchers do not seem to mind it. As yet not much over a quarter of the divisions have not yet fallen into line, probably 75,000 will pass in review before the Republican candidate for Governor. At the head of the procession was a truck drawn by 12 horses, bearing a model of the steamer Dolphin, and alongside were 75 men in seamen's uniform, who carried banners inscribed: "The Democrats killed John Rauch, but his spirit goes marching on."

Awaiting Results.
OTTAWA, Nov. 3.—Before taking action with regard to the removal of the Chinese interpreter from Victoria, the Department will see what effect the United States exclusion bill will have on Chinese immigration in Canada. It appears, from recent returns to the Department, that a large majority of the Chinese entering Canada of late have landed at Vancouver. The necessity for keeping interpreters at either port depends on the trade of the future; but, no doubt, owing to the large Chinese trade done at Victoria, an interpreter of some kind will have to be kept at that place.

The Customs preventive officers at the New Brunswick coast collected duty recently on a casket containing a body being brought into Canada from Boston for burial. Application has been made to the Department, asking that the duty collected be refunded.

The Canadian Pacific Muddle.

WINNIPEG, Manitoba, Nov. 3.—The crossing case came up before the railway committee of the Provincial Council at Ottawa yesterday. Clark, solicitor for the Canadian Pacific, submitted his case as prepared for submission to the Supreme Court and a decision is expected next week. The hostile forces are still gathered at the crossing and everything indicates an intention to force a crossing if possible. Meantime, anticipating a hostile decision in the Supreme Court, the Government has given notice of its intention to apply to the Dominion Parliament at Ottawa, which convenes in January, for permission to cross the Canadian Pacific tracks.

A Public Benefactor.

NEW YORK, Nov. 3.—The will of the late John Guy Vassar was presented for probate at Poughkeepsie yesterday. The opening sentence is as follows: "Having no lineal heirs, my desire and aim in the disposition of my property is to do the most good, and forward the cause of humanity." In accordance with this statement, nearly all of the estate is willed to public institutions, and about Poughkeepsie, the leading bequests being to Vassar College, in which three new chairs are established, besides a heavy endowment to the Vassar Orphan Asylum and the Vassar Hospital.

Wounded Sovereigns.

ST. PETERSBURG, Nov. 3.—An official messenger states that the Czar's foot and the Czarina's hand were injured in the accident to the Imperial train on Monday. Despite their injuries the Czar and Czarina devoted themselves to attending to other persons more severely injured. Most every member of the Imperial suit received contusions. Twenty-one of the attendants were killed, thirty-seven seriously injured, one of whom has since died.

Persons on the Imperial train confirm the official version of the cause—a defective track.

Sam Davis' Latest.

CARSON, Nov. 2.—To-day the decomposed body of a child was found in the tank of a V. & T. fire engine. The discovery was not made until it was found that the suction pipe was stopped, and a search showed that portions of the body clogged the pipe. It was a child that looked as if it had been thrown in and drowned when a few days old. No clue to the parents.

Firemen Injured.

SAGINAW, Nov. 3.—This morning a hose cart going to a fire collided with a heavy wagon, throwing six firemen to the ground, the cart falling on them. All were badly hurt, and some may die.

Looks a Little Fishy.

NEW ORLEANS, Nov. 3.—A United States express messenger on the New Orleans & Northeastern railway, which arrived here this morning, was robbed at 5 A. M. between Lacey and Derby stations, fifty miles from this city. The express officials decline to state the amount of the robbery, but it is understood the loss is between \$40,000 and \$50,000. The robber entered the express car where H. McElroy, baggage-master, was sitting near the middle of the car, and the express messenger, Charles Laney, was at one end checking off freight. The robber came first to the baggage-master, presented a pistol and required McElroy to hold up his hands; and, quickly throwing a sack over McElroy's head, the robber gave his attention to the messenger, who was required at the point of a pistol to open the safe. A sack was then placed over the messenger's head, while the robber proceeded with his work of securing the money. After securing the contents of the safe, the robber pulled the bell-rope, and, when the train stopped, he left the car unobserved. When the express car was finally reached by the conductor, both McElroy and Laney were found standing, with their hands up and the sacks over their heads. They were under the impression that the robber was still present.

A Disabled Bark.

SAN FRANCISCO, Nov. 3.—The American bark Guy C. Goss, which left Higo, Japan, for New York early in September, arrived here to-day in a disabled condition. She encountered a typhoon on the voyage and her masts had to be cut away to save the vessel. All sails were lost. When the storm subsided new masts were improvised and the voyage to this city made under difficulties. Many weeks will be consumed in making the necessary repairs before the vessel can proceed on her voyage.

Mormons Going to Canada.

OTTAWA, Nov. 3.—According to the returns received by the Department of Agriculture, over 200 Mormons have emigrated from Utah to the Canadian Northwest during the past season. Settlements are already established south of the Canadian Pacific, but as the thriving Mormons cannot take up land before agreeing to abandon polygamy, they are devoting themselves to cattle raising.

A Telegraphic Invention.

NEW YORK, Nov. 3.—Dr. Harris of Washington is the inventor of a new system of machine telegraphy, by which messages are printed at the farther end, the sending instrument being similar to a typewriter. It is claimed to be able to send 200 words a minute, and will revolutionize telegraphy, making it much cheaper to send by wire than mail.

A Railroad Accident.

TOLEDO, Nov. 3.—The north-bound Michigan Central train for Detroit collided with a pony engine at the Air Line Junction in the suburbs this morning. Both engines and the front end of the baggage car were wrecked, and the engineers and firemen of both engines were severely but not fatally hurt.

The Government Opposed.

COPENHAGEN, Nov. 3.—The Opposition party in Folketing are using every effort to defeat the Government's plan for the celebration of the 25th anniversary of King Christian's accession to the throne.

The Farnell Investigation.

LONDON, Nov. 3.—Captain O'Shea has written a letter in reply to the one written by Harcourt, stating that he will not imitate Harcourt in discussing evidence given under oath.

Nearly a Clean-up.

PARIS, Nov. 3.—Advices from Saigon say the pirates attacked a post consisting of 40 men of the foreign legion and seven pagodas, in Tonquin, and killed all but one man.

Bank Statement.

NEW YORK, Nov. 3.—The weekly bank statement shows the following changes: Reserve decrease, \$1,968,000. The banks now hold \$18,560,000 in excess of the 25 per cent. rule.

The "Old Roman" in Ohio.

NELSONVILLE, Ohio, Nov. 3.—Thurman and party arrived from Columbus this afternoon and were greeted by a large concourse of Democrats from all this region.

To be Wound Up.

PARIS, Nov. 3.—The Court has ordered that the affairs of the American Exchange in Paris be wound up under the supervision of the Court.

A River Steamer Sunk.

MARYSVILLE, Ky., Nov. 3.—The river steamer Fashion sank near Manchester island. The passengers and crew escaped—total loss, \$30,000.

Eighty Coal Miners Killed.

PARIS, Nov. 3.—A terrific explosion occurred to-day in the Campagnac coal pit and eighty miners were killed. Twenty-two bodies have been recovered.

A Minister Recalled.

BERLIN, Nov. 3.—The report is confirmed that Von Schleier, the Prussian Minister at the Vatican has been recalled.

Liberal Catholics.

ROME, Nov. 3.—Catholics of Australia and India have presented the Pope with a million dollars.

TELEGRAPHIC BREVITIES.

Bar silver, 93.

A slight earthquake occurred at Memphis, Tenn., this morning. The latest advices from Zanzibar state that H. M. Stanley is still living.

Forbes' Failure.

BOSTON, Nov. 3.—The liabilities of William D. Forbes, late President of the National Bank of Redemption, are \$200,000—nominal assets \$60,000 to \$75,000.

Around the World.

NEW YORK, Nov. 3.—John J. Phelps' schooner yacht, Brunhilda, sailed this morning for a voyage around the world.

UNRELIABLE LABORERS.

The Vineyardists Having Trouble With Their Chinese Help.

A California exchange says: The Fresno vineyardists are having a great deal of trouble with their Chinese grape-pickers this year. A few seasons ago this class of labor could be secured at almost any price, but since the Chinese have secured exclusive control of this branch of industry they have become arrogant and self-important, and this notwithstanding the fact that they are receiving \$1.25 to \$1.50 a day, a large increase on former wages. They strike if a white foreman is put over them, if a Chinese foreman urges them to work faster, or if they do not think they are getting enough pay. They give no cause for striking, but quit work and a vineyard without a word of explanation, leaving thousands of dollars worth of grapes to rot upon the vines. The grape-growers and manufacturers who have fostered Chinese labor are finding out that the little yellow man will not always remain a serf, but that, when he becomes master of the situation, as he is at the present time in this industry, he will crack his whip over the head of his former master and make him dance to a merry tune. However, the result of the strike in the vineyards among the Chinese this year, will be their displacement to make room for young Americans from the country towns and cities of California, adding to our progress by encouraging industry and keeping at home the thousands of dollars which the Chinese grape-pickers have been sending annually to their native country.

Man Drowned.

A Salt Lake dispatch of the 30th ult. says: J. Olsen of Sandy, U. T., was drowned to-day while trying to back over a bridge. He was thrown into the water, with his buggy on top of him and the horses on top of the buggy. It was three-quarters of an hour before the wreck was cleared away, and when he was got out Olsen was dead.

How to Make Cabbage Head.

The failure of cabbage to head is more often due to the lack of plant food than anything else. Water diluted with phosphates will often transform a mass of loose cabbage leaves fit only for feeding, into a solid, salable head.

Do you feel dragging sensations in the back and loins, are you troubled with wakefulness, faintness at the pit of the stomach? Are you nervous and irritable? If so, we would advise you to try Oregon Kidney Tea (purely vegetable). It never fails to effect a permanent cure of kidney and urinary complaints. Sold by Wm. Pinniger.

SOUTHSIDE IRRIGATING CANAL COMPANY.—Notice is hereby given that the annual meeting of the stockholders of said company will be held on

Saturday, December 1, 1888, at the office of the Secretary, in the Court-house in Reno, at 7 o'clock P. M., for the election of Trustees for the ensuing year, and for the transaction of such other business as may properly come before the meeting.

Assessment Notice.

SOUTHSIDE IRRIGATING CANAL COMPANY.—Location of canal, Washoe county, Nevada. Notice is hereby given that at a meeting of the Board of Trustees of the above named company, held on the 24th day of November, 1888, an assessment (No. 21) of One Dollar (\$1) per share was levied on each and every share of the capital stock of the company, payable immediately in United States gold coin to John B. Williams, Secretary, at his office in the Court-house, Reno, Nevada. Any stock upon which this assessment shall remain unpaid on the

1st day of December, 1888, shall be deemed delinquent, and will be advertised for sale at public auction, and unless previously paid will be sold by the Secretary of said company at his office on Monday, the 1st day of December, 1888, at 2 o'clock P. M. of that day, to pay such delinquent assessment, together with the costs and expenses of sale. By order of the Board of Trustees, JOHN B. WILLIAMS, Secretary. Reno, Nevada, November 2, 1888. no2td

The Marquis of Queensbury, who is now in San Francisco, writes to the *Call* that he is for free trade.

Diphtheria in Oakland is becoming quite prevalent, sixteen new cases having been recently reported.

Three cars of beef cattle shipped at Battle Mountain by G. W. Crum were reloaded here last evening for Sacramento.

A gentle rain began falling at about 1 o'clock this afternoon and continued up to the *Gazette's* press hour. It is needed had enough.

A Helena (Montana) dispatch says that wolves continue to create great havoc among the sheep and colts of Northern and Eastern Montana.

The Winnemucca *Silver State* calls the indorsement of County Clerk Julien the Washoe county Democracy a handsome compliment, "which it certainly is."

The *Appeal* says there is a report in Carson that Jack Todman, the printer, has been shanghaied in San Francisco and sent to a South American port.

In another column will be seen a notice that Constable Upson has impounded four horses, upon which the owner is called on to pay charges and take away.

Sheriff J. T. Williams of Douglas county was quite severely hurt last Tuesday night at Glenbrook by being thrown from his buggy, his horses having taken fright at the electric light.

NEVADA EXHIBIT.

The Display of Hon. Wm. Thompson at the Board of Trade Rooms.

A *Gazette* reporter visited the San Francisco Board of Trade Rooms yesterday to inspect the Washoe county exhibit, put there by Hon. Wm. Thompson, and to say that he felt proud to hail from Western Nevada would be drawing it mild. For variety and quality it ranks among the finest exhibits there, and this community owe Mr. Thompson a debt of gratitude for the interest he is taking in Nevada's behalf, that will be hard to repay. The exhibit occupies a place in the rooms next to Santa Clara county and is tastefully arranged. It is attracting more attention than that of any other locality, from the fact that Nevada has always been looked upon as a mining and not an agricultural State. Throngs of people were constantly examining the apples, honey, squash, pumpkins, hay, turnips, cheese, etc., and nothing but praise was heard. Mr. Thompson is entitled to much credit for doing what he has and is constantly doing to advertise Nevada and her products, as well as Secretary Davies and President Brown for the interest they are taking. Messrs. Davies and Brown point with pride to the Nevada exhibit, as they have a right to do, for it certainly is a very creditable display.

State Land Office.

During the week ending Nov. 2d, three applications for State land were filed, embracing 548.03 acres. Cash receipts were: Payments on application, \$137; second and full payments, \$400; payments on contracts, \$235.54; interest payments, \$238.14. Total, \$1,010.68. Twenty-one contracts in duplicate were signed and completed, covering 2,718.96 acres, drawing interest at 6 per cent. per annum.

Sincerely Hurt.

Last evening Mrs. W. M. Havenor, who had occasion to step into her pantry, which at the time was dark, walked directly into the cellar, the trap-door of which having been carelessly left open, and was quite seriously injured by the fall. For some time she remained unconscious, but is reported better to-day.

More of Judge Harris.

The *Lassen Advocate* says that Judge Harris of Modoc county, Cal., is a bonanza to the papers of that locality, his latest freak having been to take a dose of strychnine, but got too much and did not die.

Notice.

All persons who may be affected with heart or lung troubles can have their teeth extracted by the use of Dr. Lee's local anesthetic, with but very little pain and no danger to the person.

A local anesthetic will be administered at either of our six California offices: Dr. I. G. Leek, 742½ Market street, San Francisco; Dr. G. W. Leek, No. 6 O'Farrell street, San Francisco; also at the following places: San Jose, Santa Cruz, Watsonville and Salinas City. Dr. J. J. Leek can be found for the present at the Golden Eagle Hotel, Reno, rooms 25 and 26.

It will remain until Tuesday, November 6th, then make a short visit to the following places: San Jose, Santa Cruz, Watsonville and Salinas City. Dr. J. J. Leek can be found for the present at the Golden Eagle Hotel, Reno, rooms 25 and 26.

The funeral of Ida May, daughter of Edwin Dalton and wife, took place yesterday from the Methodist Church, Rev. R. H. Brady officiating. Still another member of the Dalton family is reported very ill.

The exhibit of Lassen county at the San Francisco Board of Trade room is not what it should be. It is poorly arranged, and does not by any means give a correct idea of what Lassen is capable of in the way of agricultural products. The people of Lassen should see to it that their county is better represented, for it is a great advertisement and should not be neglected.

Will be Watered Here.

On account of a scarcity of hay in Sierra Valley, the *Leader* says that many cattle from that locality will be watered on Truckee Meadows.

WILLING TO SETTLE.

Claims That He Had No Intention of Swindling Anybody.

Messrs. Folsom and Prosser, who went to Sacramento to interview Frank Roux, the sheepman, who left Reno without bidding his creditors good bye, returned Thursday night. A *Gazette* reporter interviewed Mr. Folsom and learned the following: Roux claimed that he had no intention of swindling anybody, but intended, with the money received for his wool and the sheep sold Mr. Wheeler, to purchase another band in California and drive them to Nevada, thinking he could better "stand off" his creditors if he could show them that he was perfectly solvent. He claimed to feel extremely sorry for the trouble to which he had put those who had, in a financial way, accommodated him so often, and he readily consented to not only pay the full amount of his indebtedness to Messrs. Folsom and Prosser, but also paid all their expenses to California, as well as all other expenses incurred in connection with the affair.

Tricked by Gypsies.

Some gypsies told Jacob Felker, an old farmer at Littleton, Penn., that if he should bury money in a certain spot it would double itself in a night. Felker planted \$10, and the next morning dug up \$20. This turned his head, and he drew \$800 from the bank and buried it, but the next morning both the money and the gypsies were arrested.

Something of a Chasm.

The New Orleans *Picayune* (Dem.) says: By a great majority of the respectable people of Louisiana the Republican party is loathed, detested and abhorred as much as at any former period. The purpose of the Louisiana Democracy, as of the whole Democracy of the South, is to hold together until the Republican party has been utterly crushed and destroyed.

SCRAPS AND SCRAPES.

Last year's gross receipts of the mail service are placed at forty-eight million dollars.

An Eastern steel company has contracted to supply the navy with sixty-five tons of steel gun forgings, to cost nearly fifty-four thousand dollars.

It has been estimated that the power exerted by the tail of a whale eighty feet long and twenty feet across the flukes of the tail, in propelling it at the rate of twelve miles an hour, is equal to the power of 145 horses.

A raven belonging to a gentleman of Chicago is said by him to be one hundred years old. The owner has letters dated in 1790, referring to "Old Putnam," the bird, and commenting on his many accomplishments. The bird is an eagle and talks like a young one.

Ten cent which, until recently, was unknown in the South, is gradually finding favor. A scheme was put into practice at one time the flooding of the country with the copper currency, but it was in vain. Later, however, the desired object is steadily being accomplished.

The largest freight bill ever paid by one shipper is said to have been that on thirty-one car loads of granite shipped from New England to the Pacific Coast, the cost of which was ten thousand dollars. It was to be used in the construction of a mechanical school in San Francisco, an endowment by the public benefactor, Dr. H. D. Cogswell, of drinking fountain fame in the West.

The want of accuracy in shooting, owing to the imperfect construction of the cannon in early times is well illustrated by the fact that in 1812 at the battle of Salamis 3,500,000 cartridges and 1,000 cannon balls were fired, with the result of only 8,000 men being put hors de combat. And as late as 1857, during the Kaffir war, 80,000 cartridges were fired in a single engagement in which only twenty-five of the enemy were killed.

A New York firm of wine merchants have in their possession two casks made of what is thought to be the oldest and best preserved wood in existence. This wood was formerly part of the foundation of a bridge over the Rhine at Mainz, in the time of Trajan, ninety-nine years after Christ. In later years fire destroyed the bridge and it was not until 1881, while excavations for a stone bridge were being made, that portions of the ancient timbers were brought to light. The casks in question are artistically carved and ornamented.

In the manufacture of swords and bayonets for use in the German army, severe tests are employed to insure reliable weapons. With respect to swords and bayonets the testing process is the following: The blades are brought in unmounted, examined for length and thickness, then bent according to certain fixed rules; two heavy right and left cuts are then struck at a wooden block with the edge and two blows with the flat of each blade. Having passed these tests the blades are stamped and laid aside to be mounted and finished. When mounted they are again tested for solidity of connection between blade and hilt. The testing of bayonets is equally severe and exhaustive. No inferior material or defective workmanship escapes the cognizance of the inspecting officers, who are specially chosen by the ministry of war for their knowledge of all the physical and technical details connected with the material and fabrication of steel weapons.

Where Woman is Queen.

In Ohio, a married woman's rights are co-equal with her husband's. Whatever a man may do a wife may do also. If she owns separate real estate she can sell and convey it without consulting her husband. If she wants to mortgage or lease her farm or house or lot she is at perfect liberty to do so. If she possesses personal property it is her own and it will pass to her husband only by her consent. The law regarding man and wife has been completely revolutionized by a mere act of simplification. "She can buy and sell, sue and be sued, in her own name, without any intervention of her husband or 'next friend' and she is in debt when she marries her husband is not bound to pay the indebtedness unless he chooses. The creditor must collect from the real debtor. In other words, the rights of man and wife are made exactly identical. Whatever right the man possesses under the marriage relation, the same right is possessed by the wife without modification or abridgment. According to the law of Ohio today, husband and wife are not one person, but two separate and distinct individuals as far as their independent right to acquire and dispose of personal real and mixed property is concerned. If she calls her next-door neighbor an antiquated parellogram or no better than the hyppothensuse of a right-angle triangle, her unfortunate husband is not bound to go into the court and be maligned ten thousand dollars, more or less, for slander. Some of the most complicated and vexatious litigation which has ever lumbered up the dockets of the Ohio courts, enriched lawyers, and impoverished widows and orphans, will be prevented and hereafter rendered impossible by this law.

Delusions About Snakes.

Much of the popular delusion concerning snakes is contradicted by Mr. Rheim, of the Smithsonian Institution. He says: "The enormous hoop-snake, which takes its tail in its mouth and rolls along like a hoop, and the blow snake, the breath of which is deadly, exist only in the imagination. The idea that serpents sting with the tongue is erroneous. An impression prevails that the number of poisonous snakes is great, but in North America there are but three species—rattle-snake, the copper-head or moccasin, and the coral. Snakes do not jump; they reach suddenly forward—perhaps half the length of their bodies.

EDISON has a remarkable memento of Beecher at his house in Llewellyn Park. His photograph for impressing on a soft metal sheet the utterance of the human voice, and then emitting it a few seconds into a phonograph. He has kept the plates in a cabinet, and occasionally he runs some of them through the machine, which sends out the words as at first uttered.

A Woman's Opinion.

There is no difficulty in married life that cannot be surmounted if a union is founded on respect as well as affection. Ninety-nine men out of every hundred will listen to reason if put to them in the right way.

Thirty Facts Worth Knowing.

The second largest state is California. Nebraska is more than twice the size of Indiana. Michigan and Florida are the same size. Texas is four times as large as the New England States. Dakota is larger than England, Scotland and Ireland together. The population of London, England, is equal to that of Canada, or that of New York State, including its cities. Kentucky and Portugal are about the same size. California is nearly five times as large as Ireland. The island of Cuba and the State of Tennessee are nearly equal in area. Brazil is ten times as large as the United States; but the population of the latter is six times that of the former. The populations of Canada, New York, Ireland and Belgium are about the same. If the people of Canada and of the United States were placed in the State of Texas the number of persons to the square mile would be fewer than at present in China. The population of Canada is double that of Australia. Colorado is as large as New York, Pennsylvania and New Jersey together. It would take ten states as large as Massachusetts to make a state as large as Kansas. There are more people in the cities of New York and Brooklyn than in the State of Massachusetts, including its cities. There are as many people in the City of Chicago as in the State of Connecticut. There are twenty-seven states and territories each larger than New York. Oregon is equal in area to New York and Pennsylvania. Massachusetts is smaller than either New Hampshire or Vermont. Minnesota is twice the size of Ohio. The three states bordering on the Pacific are larger than the thirteen States bordering on the Atlantic. Montana is thirty times larger than Connecticut. Dakota is four times larger than Indiana. Iowa is five times as large as Belgium, and four times as large as Denmark. Maryland and Switzerland are about the same size. Michigan is twice the size of Scotland. The area of the United States is almost equal to the area of the United States, including Alaska. Texas is as large as France, Holland and Belgium together. There are nearly as many people in the City of Philadelphia as in the State of Kansas.

Garibaldi's Remains.

A remarkable controversy is being fought out over the body of Garibaldi. It will be recollected that when the hero and patriot died, his last will was found to confirm his expressions in life in favor of cremation. He directed his executors to see that his body should not be buried, but burned. The feelings of some of the members of his family, and not a few of his friends, were adverse to such a treatment of his remains. From that time to this, the present head of the family, the Deputy Menotti Garibaldi, has been entreated again and again by his father's admirers to carry out the great patriot's last request. Menotti, however, has always steadily resisted these appeals. The whole business has now been put into the hands of the Milanese Cremation Society, which is about to take legal proceedings against Menotti Garibaldi in order to compel him to lay aside his personal objections and comply with the direction of his father.

Aphorisms from Africa.

De cooles' spring hides the closest 'mongst de rocks.
Las year's hot spell cools off mighty fas.
Light nigger too much fo' de so'-back he.
De meller apple give fa'r warnin' 'fo it fall.
De noise o' de wheels don't measure de load in de wagon.

De dog dat try to scratch a mole out de ground 'ain't got 'nough education to hurt his own human, as to adapt to de sentiments and associations of men in all lands and climes.

Bunyan's Genius.

We hear that Bunyan's "Pilgrim's Progress" has been translated into Japanese, and that it is illustrated in a curious way, by native artists. Christian has a close-shaven Mongolian head, Vanity Fair is a feast of lanterns, with all the popular Japanese amusements, the dungeon of Giant Despair is one of those large wooden cages well known to Eastern criminals, and the angels waiting to receive the pilgrims on the further side of the bridgeless river are dressed after the latest Yokohama fashions in the gorgeous costumes and head-dresses of great Japanese ladies. It is the best of proofs of Bunyan's genius, that his work is found to truly human, as to adapt to the sentiments and associations of men in all lands and climes.

"Fads" and "Faddists."

A word that is often heard in English political talk is "fad." It has lately crept into its way into the dictionaries, but "fads" are many, and "faddists" and "faddism" abound. Mr. Sala has suggested that the word is a corruption of "fiddle" to dandle—in French, doloire. A "faddist" is continually dandling and caressing his "fad." It is more probably a contraction of "faddad," a word that has been long in use with much the same meaning as "fad." Edward Moore, writing in The World in 1754, applies the word to a very precise person—"The youngest, who thinks in her heart that her sister is no better than a slattern, runs into the contrary extreme, and is, in everything she does, an absolute faddist." From "faddad" in this sense to the modern "fad" and "faddist" is not a very violent transition. The tendency to abbreviation is very general. —Home Journal.

A novel custom still prevails among ladies in some parts which will commend itself to maiden ladies growing old. It is said that she who puts on a silk-stocking the first day of the year and wears it continuously will certainly marry during the year. It is said that the mother of a young lady, being very much pleased with the silken garter worn by a young lady for this purpose, proposed to her to "fellow" for her, but the young lady declined, saying she had sufficient confidence in the bewitching cirelet, and preferred the natural coming of the "fellow."

THE PLATFORM.

The Republicans of Washoe, proud of the past and hopeful for the future, heartily endorse the platform and nominees of the National Republican Convention, as adopted at Chicago, and the Republican State Convention at Winnemucca, and pledge a majority for Harrison and Morton, and Protection, and Murphy and Hartman, and the ticket nominated by this Convention. We demand legislation from both Government and State in regard to irrigation, and for the improvement of our natural waterways, as well as for the storage of water, whereby the natural advantages of this section can be improved to their fullest capacity. We demand the most rigid economy in State and County affairs, and the establishment of the State's expenses upon such a basis as will secure good government at the lowest rate of taxation. We maintain that a rate of seventy-five cents should be and is sufficient to provide revenue for the State Government. In view of the rejection of the new Chinese treaty by the Mongolian Government we demand the total and absolute exclusion of all Chinese, and they must go.
